

Lighting Design Studio

### Profile

Terry Bell, President and Principal Designer for CTG, has been actively doing lighting design for over 20 years, on projects Worldwide. Prior to starting CTG, Terry was a founding member and Principal Designer for CD+M Lighting Design Group ([www.cdmlight.com](http://www.cdmlight.com)), one of largest and fastest growing lighting firms in the country. Terry is a Professional Member of the IALD ([www.iald.org](http://www.iald.org)), the defining authority on lighting design. Currently, there are no Professional Members in Tennessee, and five in the state of Florida. Terry has also served as an Adjunct Professor for the Atlanta College of Art and the Atlanta Intercontinental University, both teaching Lighting Design in the Interior Design departments.

## Services

CTG provides interior and exterior lighting design services for Retail, Corporate, Hospitality and Entertainment. Services range from conceptual only, to full documentation through construction administration.

Additionally, Terry's Associate of Science degree in mechanical engineering combined with his creative talents allows him to collaborate much closer with the design team to create custom lighting fixtures for projects that require something unique or integral to the space.
